Greys GRXi+ Fly Reel

The GRXi+ Fly reel from Greys is full interchangeable with the GRXi reel. It also comes with the same padded carry case and three spools for carrying different lines. Yet, this reel stops being similar right there. The GRXi+ features a fully upgraded cage and a much larger drag system. When you need to stop a large permit or tarpon, the GRXi+ is the reel to use. Low startup and great pressure make the Rulon drag system perfect for these large game fish.
